

Rainfall Forecast Somalia

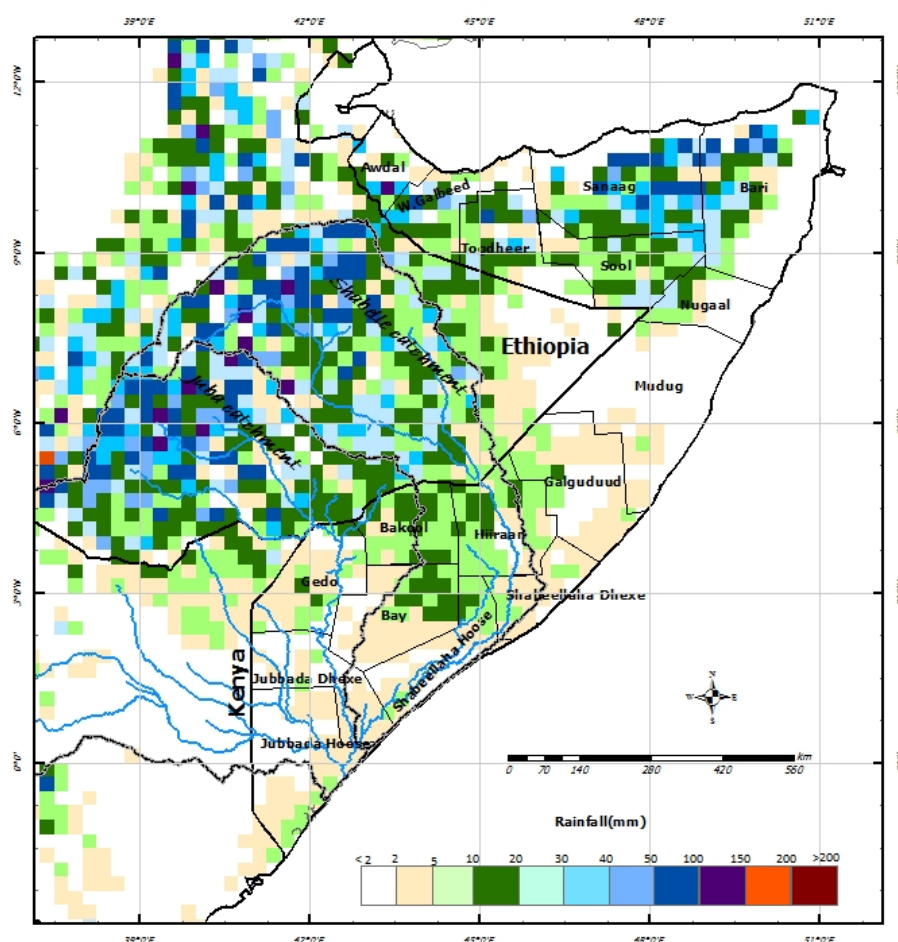

Issued: 07/04/2016

Heavy storms have been reported in parts of Awdal and Woqoyi Galbeed regions in Somaliland. The storms have led destruction of structures, loss of unconfirmed number of livestock and six human lives. Dilla, Jufa and Kalabaydh stations recorded 86mm, 100mm and 148mm respectively last night.

The wet conditions are expected to persist in the next three days in most parts of Somaliland and Puntland.

The Ethiopian highlands and parts of southern central regions will also receive moderate to heavy rains during the forecast period.

3-day accumulated rainfall forecast (07/042016 to 09/04/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 72 hours
